INSTRUCTIONS TO AUTHORS

Scope of the Journal

The Journal publishes original research/review papers covering almost all aspects of environment like monitoring, control and management of air, water, soil and noise pollution; solid waste management; industrial hygiene and occupational health hazards; biomedical aspects of pollution; conservation and management of resources; environmental laws and legal aspects of pollution; toxicology; radiation and recycling etc. Reports of important events, environmental news, environmental highlights and book reviews are also published in the journal.

Format of Manuscript

- The manuscript (*mss*) should be typed on a white paper in double space leaving wide margins on both the sides.
- First page of mss should contain only the title of the paper, name(s) of author(s) and name and address of Organizations where the work has been carried out.

Continued on back inner cover.....

.... Continued from inner front cover

- The text of the mss should run into **Abstract, Introduction, Materials & Methods, Results, Discussion, Acknowledgement** (if any) and **References** or other suitable headings in case of reviews and theoretically oriented papers. However, short communication can be submitted in running with **Abstract and References.** The references should be in full with title of the paper.
- The figures should be drawn on a good quality tracing/white paper with black ink with the legends provided on a separate sheet. The figures made on computer should be printed only on inkjet or laser printer. Photographs may be black and white or colour.
- Tables should be typed on separate sheets bearing a short title, preferably in vertical form. They should be of a size, which could be accommodated in the page of the Journal.
- References in the text should be cited by name and year. In case of more than one reference of the same author in the same year, add suffix a,b,c,.... to the year. For example: (Thomas 1969, Mass 1973a, 1973b, Madony et al. 1990, Abasi & Soni 1991).

List of References

The references cited in the text should be arranged alphabetically by authors' Surname in the following manner: (**Note:** The titles of the papers should be in running 'sentence case', while the titles of books, reports, thesis, journals, etc. should be in 'title case' with all words starting with CAPITAL letter.)

Dutta, A. and Chaudhury, M. 1991. Removal of arsenic from groundwater by lime softening with powdered coal additive. J. Water Supply Res. Techno. Aqua., 40(1) : 25-29.

Hammer, D.A. (ed.) 1989. Constructed Wetlands for Wastewater Treatment-Municipal, Industrial and Agricultural. Lewis Publishers Inc., pp. 831.

Haynes, R. J. 1986. Surface mining and wetland reclamation. In: Harper, J. and Plass, B. (eds.) New Horizons for Mined Land Reclamation. Proceedings of a National Meeting of the American Society for Surface Reclamation, Princeton, W.V.

Submission of Papers

- The paper should preferably be submitted by e-mail as an attachment in WORD in a single file at **contact@neptjournal.com**
- The paper can also be submitted on-line in a single WORD file through our website: **www.neptjournal.com.**

Attention

1. Any change in address may please be notified at the earliest.
2. Please make all the correspondence by e-mail, and authors should always refer *mss* number.

Note: In order to expedite publication, authors are requested to send the publication charges as soon as they get the 'initial acceptance' letter, and also correct galley proof immediately after receipt. The galley proof should be checked with utmost care, as publishers owe no responsibility for mistakes. The papers will be put on priority for printing only after receiving the publication charges.
