SCIENCE PUBLICATIONS

Nature, Environment and Pollution Technology

(A quarterly Scientific Research Journal)
(Former Journal of Environment and Pollution)

Editors:

Prof. K.P. Sharma

Deptt. of Botany

University of Rajasthan

Jaipur-302 004, India

E-mail: sharmakp_in@yahoo.com.in

Dr. P.K. Goel

Reader, Deptt. of Pollution Studies

Y.C. College of Science, Vidyanagar

Karad-415 124 Maharashtra, India

E-mail: pkgoel@pn3vsnl.net.in

Managing Editor : **Dr. Subhasini Sharma**, Associate Professor, Department of Zoology,
University of Rajasthan, Jaipur-302 004

Published by : **Mr. R.P. Goyal**, Technoscience Publications, B-34, Dev Nagar, Tonk Road,

Instructions to Authors

Scope

The Journal publishes original research/review papers covering almost all aspects of environment like monitoring, control and management of air, water, soil and noise pollution, solid waste management, industrial hygiene and occupational health hazards, biomedical aspects of pollution, conservation and management and resources, environmental laws and legal aspects of pollution, toxicology, radiation and recycling etc. Reports of important events, environmental news, environmental highlights and book reviews are also published in the journal.

KIND ATTENTION SUBSCRIBERS AND AUTHORS

1. Payments are to be made through bank draft only, in the name of "Technoscience Publications" payable on any bank at Jaipur (Rajasthan) and not in the personal names of Editors.
2. To avoid delay in publication of papers authors and co-authors are advised to become members of the Journal at the time of submission of papers.
3. Authors and co-authors are advised to send the reprint cost as soon as they receive the acceptance and demand letter.
4. The Journal is published in March, June, September and December. We shall try to replace the lost Journal subject to its availability, provided that the complaint is made within a month of publication.

Format of Manuscript

- * The manuscript (mss) should be typed on a white paper leaving wide margins on both the sides.
- * First page of mss should contain only the title of the paper, name(s) of author(s) and name and address of organization(s) where the work has been carried out.
- * The text of the mss should run into **Abstract, Introduction, Methods, Results, Discussion, Acknowledgement** (if any) and **References** or other suitable headings in case of reviews and theoretically oriented papers. However, short communication can be submitted in running with **Abstract**.
- * The figures should be drawn on a good quality tracing/white paper with black ink with the legends provided on a separate sheet. Photographs should be black and white on a glossy sheet.
- * Tables should be typed on separate sheets bearing a short title, preferably in vertical form.
- * References in the text should be cited by name and year. In case of more than one reference of the same author in the same year, add suffix a,b,c,... to the year. For example: (Thomas 1969, Mass 1973a, 1973b, Madony et al. 1990, Abasi & Soni 1991).

Note: In order to expedite publication, authors are advised to enclose a demand draft for their membership at the time of submission of mss and also correct galley proof immediately after receipt with care, as publishers owe no responsibility for mistakes. **The papers will be put on priority for printing only after receiving membership and reprint cost.**

List of References

The references cited in the text should be arranged alphabetically by author's Surname in the following manner:

- Dutta, A. and Chaudhury, M. 1991. Removal of arsenic from groundwater by lime softening with powdered coal additive. *J. Water Supply Res. Techno. Aqua.* 40(1): 25-29.
- Hammer, D.A. (ed.) 1989. *Constructed Wetlands for Wastewater Treatment-Municipal, Industrial and Agricultural*, Lewis Publishers Inc. pp. 831.
- Haynes, R.J. 1986. Surface mining and wetland reclamation. In: Harper, J. and Plass, B. (eds.) *New Horizons for Mined Land Reclamation. Proceedings of a National Meeting of the American Society for Surface Reclamation*, Princeton, W.V.

Submission of Papers

- * The manuscript can be submitted in duplicate to either of the editors. However, preference should be given to Dr. P.K. Goel for papers dealing with pollution.
- * Contributor(s) to this Journal should hold the membership of the Journal.
- * No gratis reprints will be supplied. Authors have to purchase a minimum of 25 reprints on a nominal cost.

Attention

1. Any change in address may please be notified at the earliest to the publisher to avoid the non-receipt of the Journal and other correspondence.
2. Individual subscribers are requested to please give their home addresses also for safe delivery of the Journal.

©**Technoscience Publication:** The consent is hereby given that the copies of the articles published in this Journal can be made only for purely personal or internal use. The consent does not include copying for general distribution and resale of reprints.

Other Publications of Interest

- 1. Advances in Industrial Wastewater Treatment (P.K. Goel)** It is a comprehensive book containing twenty eight detailed articles written by renowned persons in the field, dealing with various aspects of wastewater treatment from diverse industries. The book incorporates exhaustive Reviews on the strategies for treatment of distillery, tannery and textile industries. A few articles deal with the technologies for removal of mercury and other heavy metals from complex industrial wastewaters. Detailed information has been provided on the mitigation of colour problem in certain wastewaters. The book also includes articles dealing with the wastewaters of certain problematic industries like dry battery cell manufacture, silk filature, phenolic wastewastes and rubber latex. A few recently developed technologies like UASB and liquid membrane technique have also been dealt in the book in detail. The book shall be highly useful to consultants, pollution control authorities, industries, R&D department, research scientists, universities, colleges and engineering and technological institutes.
ISBN: 81-900553-7-2 Price: Rs. 600 (India), US\$60 (Overseas) Pages: 500 Edition 1999 (PB)
- 2. Environment and Metal Pollution (R.R. Khan)** The book comprehensively deals with the subject of metals and their environmental and health consequences. The book covers not only environment related topics but also general aspects of metals such as nature and classification, uses and production, metals as micronutrients and metal interaction with microbes. Topics dealing with the surveys on metal pollution, recycling test procedures and bioassays with metals have also found a place in the book. The book also incorporates a chapter on the legislative aspect dealing with control and regulations on metals. It also enlists standards prescribed by various regulatory agencies.
ISBN: 81-85771-19-7 Price: Rs. 400 (India) Pages: 168 Edition: 2001 (HB)
- 3. Environmental Pollution and Management of Wastewaters by Microbial Techniques (G.R. Pathade and P.K. Goel)** The book contains selected articles giving in-depth knowledge of various aspects of the subject. Articles cover treatment of diverse industrial wastes like pulp and paper, dairy, petroleum, textile and domestic sewage. A separate review article on microbial aspects of vermicomposting has also been included in the book. The book also incorporates topics on biotechnology in oil recovery, spent wash composting, detoxification of organophosphorus pesticides by immobilised microbes, biological nitrogen removal from wastewater, degradation of nitrophenolic compounds and microbial control of environmental pollution. A few chapters specifically deal with biomethanation of organic wastes. Topics on microbial seed technology, bioassays for determination of metals, shrimp aquaculture, molecular methods of wastewater monitoring and role of actinomycetes in agro-waste management are discussed in length.
ISBN: 81-85771-26-X Price: Rs. 800 (India) Pages: 413 Edition: 2001 (HB)
- 4. Current Topics in Environmental Sciences (G. Tripathi and G.C. Pandey)** Different aspects related to soil, water sand air pollution have been discussed in a lucid manner in this book. Topics covering aquatic pollution have been given due consideration. Effects of industrial pollution on aquatic fauna and flora have been well covered. Mathematical modelling and system analysis for aquatic environment have also found a place in the book. The present economic policies and its impact on community environment and sustainable future have been critically discussed. Biological diversity in perspective and biological control of insects and pathogens have also been included. DNA technology and its role in biodiversity conservation has been nicely elucidated. Bioremediation has been given as a tool for pollution abatement. Chapters on impact of pesticides on reproductive physiology, environmental pollution by heavy metals, hazards of pesticides and human health implications due to air pollution have also been included in the book. Photoperiodic control of reproduction in birds has been well discussed in this book.
ISBN: 81-85771-27-6 Price: Rs. 995 (India) Pages: 536 Edition: 2001 (HB)
- 5. Hand Book of Methods in Environmental Studies (Vol. 1 Water and Waste Water Analysis - S.K. Maiti)** This is a book for laboratory analysts, undergraduate and postgraduate students, researchers, and others involved in the analysis of water and wastewater. Methodological discussions on each experiment is preceded by a synoptic review of national and international standards and environmental significance. Attempts have been made to clearly present the principles, precautions, apparatus and glassware required; reagent preparation procedures of conducting experiments (flowcharts, illustrations etc.) and calculations. At the end of each experiment questions along with numericals related to the experiment performed have also been given as self-check to gain confidence. Much useful information pertaining to the chemicals and glassware required for analysis, interconversion of units, preparation and characteristics of acids, alkalies and indicator solution, and detailed drinking water standards is given in appendices.
ISBN: 81-85771-34-0 Price: Rs. 500 (India), US\$50 (Overseas) Pages: 307 Edition 2001 (HB)
